

Faculty of Law

Advanced Masters Intellectual Property Law and Knowledge Management (LLM/MSc)

Learn more about intellectual property from international experts from practice and academia.

The **Advanced Masters Intellectual Property Law and Knowledge Management (IPKM)** feature specialization tracks on international IP litigation practice, entrepreneurship and valorization, and claim drafting. In its common programme lawyers, economists, scientists and engineers mingle to deal with real-life problems in multidisciplinary teams.

The IPKM is fully accredited by the Dutch-Flemish Accreditation Organization (NVAO) and by the European Patent Office, the latter resulting in a six-month remission of the period of professional training for the European Qualifying Examination (EQE) for European Patent Attorney.

Whether you enroll full or part-time, IPKM teaching is scheduled in a way that permits combining work and study.

Intensive modules offered in Maastricht and abroad also offer exposure to USA and Asian IP law and practice. Our honours programme provides access to our work in the Institute for Globalisation and International Regulation (IGIR) and to the European IP Institutes Network (EIPIN) congresses and activities.
