MA IN INTERNATIONAL PUBLIC SERVICE

INTRODUCING THE MA IN INTERNATIONAL PUBLIC SERVICE

The MA in International Public Service offers an interdisciplinary approach to the constantly evolving realm of international relations. Our students will be acquainted with a broad range of contemporary issues in international relations, from the phenomenon of globalization to the law and policy making of international organizations to international law and the law of the European Union as well as hot topics such as good governance or anti-corruption management. The aim of the program is to train experts capable of carrying out tasks at national, international and EU agencies, as well as at international organisations, in the administration of foreign affairs, defence policy and law enforcement as well.

COMBINING THEORY WITH PRACTICE

We teach our students to make sense of the political, economic, social and environmental dynamics changing our world. Teaching is based on interdisciplinary methodology, employing the knowledge and tools of a wide range of social sciences. Regular study trips are organized to ensure first-hand experience how theory is applied in practice - to EU bodies and agencies in Brussels, as well as to the United Nations' organisations in Vienna.

HIGH TECH TRAINING FACILITIES IN THE GREEN HEART OF BUDAPEST

The Faculty is located in the beautifully renovated historic building of the Ludovika Academy. The Campus, offering up-to-date teaching facilities, is situated in a green recreational zone of Budapest: the spacious Orczy Park offers clean air, alleys of trees and a small lake - and all this close to the city centre, right along one of the main metro lines of Budapest.
