SUW was a great experience! I had a nice and surprising welcome when I arrived. Everything was arranged for me. The other participants were from everywhere around the world, it was cool to get to know all those different cultures and to live together for two weeks.

The classes at SUW were interesting and were well organized. We had classes from different professors who looked at the subject in different ways. It was good to learn about Poland's history and its influence on the changes in Europe in the 1980s.

What can I say about Warsaw? I liked it a lot! It's maybe not that historical, however it had a certain touch that I

You can clearly notice that they are still busy with rebuilding and improving Warsaw. We also visited Cracow and Auschwitz; this was really interesting and impressive.

However, the best at SUW were our Polish hosts. Those students arranged everything, like classes, food, drinks, bars, and so on. Every day they organized a city

trip to Warsaw, and in the evening we would go to the bar, club or karaoke. Our Polish hosts were fabulous!!! Thank you for the great time!

So, don't question it, just go to Warsaw, and enjoy it in multiple ways!
